AUGUST 2012 – SEPTEMBER 2012

Aditya Birla Group

Integration of Job Evaluation Manager (JEM) with PeopleSoft HR

Co-ordinated with third party vendor to understand their system functionality and integration options available. Designed a stable and efficient integration mechanism which should be able to handle all possible business scenarios. Successfully integrated JEM with PeopleSoft HR using Web Services and Integration Broker.

JUNE 2012 – AUGUST 2012

Aditya Birla Group

HR Summit Site

Lead a team of 2 people, created project plan and estimated effort. Designed and developed the dynamic site components within PeopleSoft framework. Handled the project migration activities ensuring minimal regressions. Successfully launched the site within specified timelines and received client appreciation for the same.

APRIL 2012 – MAY 2012

Capgemini India Pvt. Ltd.

Integration of PeopleSoft HR with .net LMS

Understood the business requirement and designed a robust integration technique. Co-ordinated with LMS team figure out a way to capture the changed data in their system. Developed the integration using Application Engine and Component Interface so that certification data flows from .net LMS to PeopleSoft HR.

APRIL 2012 – MAY 2012

Capgemini India Pvt. Ltd.

Data Archival in PeopleSoft FSCM

Gathered business requirement for deciding the criteria of data archival. Studied the feasibility of using PeopleSoft Data Archive Manager for archiving data. Designed and developed archival templates for PeopleSoft Data Archive Manager to archive the data.

DECEMBER 2011 – FEBRUARY 2012

Capgemini India Pvt. Ltd.

Integration of Documentum with PeopleSoft

Integrated PeopleSoft with Documentum Content Server to fetch documents stored in Documentum. Studied feasibility of proposed integration. Designed and developed optimal and secured integration architecture.

OCTOBER 2011 – NOVEMBER 2011

Capgemini India Pvt. Ltd.

Clustered Server Deployment for PeopleSoft

Deployed a clustered server architecture for PeopleSoft HR to manage huge traffic of users. Performed server capacity calculation and suggest hardware resources needed. Deployed application server clustering with weighted traffic routing to each server. Deployed stateful failover cluster for web server.

JULY 2010 – SEPTEMBER 2011

Capgemini India Pvt. Ltd.

PeopleSoft Interaction Hub Implementation and Support

Implemented PeopleSoft Interaction Hub integrating multiple cross-domain applications. Integrated PeopleSoft HR, PeopleSoft FSCM and multiple .NET applications to bring them under one roof of PeopleSoft Interaction Hub. Designed & developed the integration architecture, setup & deployed the application on Production server. Setup and configured production servers for Application, Web and Database maintaining strict security standards. Supported application and bring out the enhancements as requested by client.

MARCH 2010 – JUNE 2010

Oracle India Pvt. Ltd.

Integration of CKEditor 3.1 with PeopleSoft

Integrated CKEditor 3.1 (a rich text editor for web-pages) with PeopleSoft. Developed the integration using JavaScript, HTML and PeopleCode. Acted as a single point of contact (SPOC) for interacting with third party vendor. Reported bugs and got timely resolution of reported bugs.

AUGUST 2008 – JUNE 2010

Oracle India Pvt. Ltd.

Enhancement of PeopleSoft Interaction Hub 9.1

Reviewed Business Requirement Document and Functional Design Document. Created Technical Design Documents for new functionalities. Enhanced the application as per functional design document. Performed unit testing and fixed bugs reported in testing. Fixed the bugs reported by clients and prepare them for release. Consolidated all the fixes to create application bundles and released them to clients via Oracle Support.

JUNE 2008 – AUGUST 2008

Oracle India Pvt. Ltd.

Integration of Facebook with PeopleSoft

Integrated Facebook with PeopleSoft using Java and Facebook REST API. Authenticated PeopleSoft users in Facebook using OAuth. Fetched PeopleSoft users data from Facebook and displayed them in PeopleSoft homepage pagelet.
